

NHW/ATEL School Based Traineeships 2018

Certificate THREE in Allied Health Assistance

TWO YEAR PROGRAM

This qualification allows trainees to work as Allied Health Assistants upon completion.

This would suit students interested in working with our Allied Health Professionals at North East Health. Students interested in careers in Physiotherapy, Occupational Therapy and Speech Therapy are strongly encouraged to apply

Trainees work directly/hands on with our patients and are involved in assessment, planning, implementation and evaluation of patients/client's rehabilitation programs, They will also be involved in working with our NHW allied health teams in the maintenance of therapy programs, and in the preparation of written and verbal reports on client progress, while having the opportunity to work in the Outpatients, Rehab/Sub Acute and Acute setting rotations.

Examples of electives studied during the 24 months include

Work with diverse people

Recognise Healthy Body systems

Assist with movements

Communicate and work in a health or community services

Examples of tasks trainees may acquire and perform under supervision include

Assist Daily exercise programs, Communicate with patients, Assess and plan care programs
